

Fundraiser Information

Fund Raising

All-natural, gourmet, southwestern foods

"Believe it or not we have a residual earnings program that is built into our fund raiser. Your organization continues to earn money long after the initial fundraiser is completed."

- Your organization will receive 30% of the original fund raising sales price

- We have a residual income program built in for a year following the fund raiser.
 - o When we receive a re-order on the website from anyone who purchased from the fundraiser, and that individual selects your organization as they place their order, we will compensate the organization monthly.

 - o Your organization will receive 25% of the sales price. For items re-ordered online. (excluding shipping, handling, and any applicable tax)

 - o This compensation program will continue for 12 full calendar months following the month the fund raiser takes place.

How does it work:

1. We suggest giving the individuals who will solicit the fund raising a 2 week period to gather orders and the money for the product.

2. MFNM Foods will agree to aid in an incentive program to encourage participation. (Example: a pizza party for the class that collectively sales the most or a 1st, 2nd, and 3rd prize for the top 3 sellers) * Not to exceed \$100.00

3. Your organization will present MFNM Foods with all order forms and the money collected for those orders.

4. MFNM Foods will fulfill the orders within 2 weeks from the time they are placed. (** Please allow for an extra week during the holiday season)

5. MFNM Foods will deliver the product to a place as agreed upon by both parties.

6. Your organization will manage the distribution of the product to the individuals who originally took the orders for the product.

7. Those individuals will be responsible for delivering the product to the people who placed orders.
